

# OPTIMIZING THE FOOD CHAIN

## Food Safety & Business Integration

*"..I'm struck by challenges faced by the farm to table supply chain. The fractured state of the systems, the limited integration of the global food chain, the reactive planning, and the siloed food safety processes and systems are handicapping the mid-market's ability to keep up and introducing unnecessary costs."*

– Richard Sides CEO Adroit North America

Our team members have assisted with **over 300 client certifications.**

### How mature is your food safety?

# Food Safety Benefits

Integrated Food Safety Supply Chain, Operations, Back Office & Systems

Top to Bottom Food Safety Culture

Accountability, Compliance and Effective Risk Management

Predictive Mitigation

# Food Safety Services

*"In light of the pandemic, we realize that the goals outlined in the blueprint are more important than ever.*

*These include an accelerated need for enhancing traceability, exploring the use of remote inspections, addressing safety vulnerabilities for foods ordered online and supporting food safety culture."*

**– Frank Yiannas FDA Deputy Commissioner for Food Policy and Response**
