BAKERY CHALLENGES. CONNECTED ERP SOLUTIONS.

1. Recipe & Formulation Control

Manage formulas, versions, yields, and production changes with precision.

2. Batch & Production Management

Monitor batching, mixing, baking, cooling, and packaging in real time.

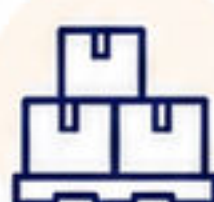

3. Food Safety & Traceability

Track allergens, lots, and finished goods for compliance and recall readiness.

4. Cost & Margin Visibility

Understand ingredient, labor, and overhead costs to protect profitability.

5. Inventory & Shelf-Life Management

Control FEFO, expiration dates, and inventory availability while reducing waste.

6. Order & Distribution Execution

Improve order accuracy, fulfillment, routing, and customer service across channels.

THE RESULT

Connect planning, production, inventory, quality, distribution, and financial performance in one bakery-specific ERP platform.

A BAKERY ERP PARTNER THAT UNDERSTANDS THE INDUSTRY

1. WHY ADROIT

DEEP BAKERY EXPERTISE

Proven experience across wholesale, retail, foodservice, private label, and contract baking operations.

POWERED BY APTEAN FOOD & BEVERAGE ERP

Built on Microsoft Dynamics 365 Business Central and purpose-built for food manufacturers.

STRUCTURED FOR SUCCESS

Business process and solution design aligned to how bakeries really operate.

CONNECTED ECOSYSTEM

Reporting, automation, EDI, mobility, labeling, and hardware solutions.

PARTNERSHIP THAT LASTS

Long-term support for implementation, adoption, optimization, and continuous improvement.

2. ADROIT VELOCITY IMPLEMENTATION ACCELERATOR

1. PLAN

Discover, assess, and define success together.

2. DESIGN

Map processes and design the right solution.

3. CONFIGURE

Configure, integrate, and prepare your solution.

4. VALIDATE

Test, validate, and ensure readiness for go-live.

5. OPERATE

Go live with confidence and drive continuous value.

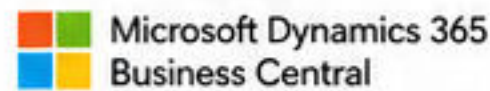

Adroit Velocity combines industry-specific process design, AI-assisted requirements and testing, proven configuration standards, and experienced consultant validation to accelerate implementation while reducing risk and delivering faster time to value.

3. A CONNECTED SOLUTION FOR THE BAKERY ENTERPRISE

Food & Beverage ERP

Built on

FORECASTING & PLANNING

Demand planning, sales forecasting, and S&OP alignment.

PURCHASING & INGREDIENT MANAGEMENT

Supplier management, ingredient specs, and inbound quality.

RECIPE, BATCH & PRODUCTION CONTROL

Formulations, batch records, scheduling, co/by-products, and yield tracking.

QUALITY, TRACEABILITY & COMPLIANCE

Lot traceability, allergens, holds & recalls, GSI labeling, and audit readiness.

INVENTORY & WAREHOUSE MANAGEMENT

FEFO, shelf-life management, lot control, and accurate stock visibility.

ORDERS & DISTRIBUTION

Order management, picking, routing, delivery, and EDI integration.

FINANCIALS, COSTING & ANALYTICS

Real-time visibility into costs, margins, KPIs, and performance.

One ERP. Every function connected. Complete visibility. Better decisions. More profitable bakeries.

LET'S BUILD A MORE PROFITABLE BAKERY OPERATION
