One ERP. Every ingredient for success.

From farm to fork, Aptean Food & Beverage ERP connects your entire business so you can ensure safety, deliver quality, and meet every regulatory standard.

Food Safety Management

Manage HACCP plans, allergens, recall readiness, and preventive controls.

Quality Assurance

Enforce quality standards, monitor specs, and drive continuous improvement.

Lot & Serial Traceability

Trace forward and backward in seconds across batches, lots, and serials.

Regulatory Compliance

Stay audit-ready for FSMA, SQF, BRCGS, GFSI and global regulations.

Cold Chain Visibility

Monitor temps and conditions across the supply chain to protect product integrity.

Recall Management

Act fast with targeted recalls and automated communications.

REAL-TIME VISIBILITY. END-TO-END CONTROL.

Centralize food safety, quality and traceability data.

Aptean Food & Beverage ERP gives your team the insight to act faster and smarter.

- ✓ Digital HACCP plans and critical control points
- ✓ Allergen tracking and label verification
- ✓ Specifications and quality testing workflows
- ✓ Complete lot genealogy and chain of custody
- ✓ Integrated document management and approvals
- ✓ Powerful analytics and reporting

Built for compliance. Designed for results.

Reduce risk and protect your brand with proactive food safety management.

Improve quality and consistency across every batch.
