Results

BEVERAGE CHALLENGES. CONNECTED ERP SOLUTIONS.

1. Recipe & Formula Control

Manage formulas, versions, yields, and production changes with accuracy.

2. Batch & Production Management

Track brewing, blending, fermentation, carbonation, filtration, and packaging in real time.

3. Quality & Compliance

Ensure regulatory compliance, quality assurance, and consistency.

4. Cost & Margin Visibility

Monitor ingredient, packaging, and labor costs to protect profitability.

5. Inventory & Shelf-Life Management

Control FEFO, track lot codes, and manage expiration dates to minimize waste.

6. Distribution & Order Execution

Optimize order accuracy, fulfillment, routing, and customer service across channels.

THE RESULT

Connect ingredients, brews, bottles, and deliveries—with real-time visibility, quality, compliance, and financial performance to drive beverage-specific ERP excellence.
