Proven
Results

FROZEN FOOD CHALLENGES. CONNECTED ERP SOLUTIONS.

1. Recipe & Formulation Control
Manage complex formulas, versions, yields, and nutritional information with precision.

2. Batch & Production Management
Track lot-controlled production, co-packing, partner plants, and rework in real time.

3. Cold Chain Integrity
Monitor temperatures, manage frozen storage, and maintain product quality end-to-end.

4. Food Safety & Traceability
Ensure compliance with GS1 standards, recall readiness, and lot-level traceability.

5. Inventory & Shelf-Life Management
Control FEFO, expiration dates, and frozen inventory across multiple locations and storage conditions.

6. Order & Distribution Excellence
Optimize order accuracy, routing, and on-time delivery with full visibility.

THE RESULT

Connect planning, production, inventory, quality, distribution, and financial performance in one frozen food-specific ERP platform.
