Results

PET FOOD CHALLENGES. CONNECTED ERP SOLUTIONS.

1. Recipe & Nutritional Formulation Control

Manage complex recipes, nutritional targets, allergens, versions and palatability with precision.

2. Batch & Production Management

Monitor batching, mixing, cooking, extrusion, baking, coating and drying in real time.

3. Quality, Safety & Regulatory Compliance

Ensure AAFCO compliance, manage recalls, certificates, and safety testing with complete traceability.

4. Ingredient & Cost Visibility

Track ingredient specs, allergens, supplier cost, and yield to protect profitability.

5. Shelf-Life & Inventory Management

Control FEFO, expiration dates, and lot tracking across finished goods and packaging.

6. Order & Distribution Excellence

Improve on-time delivery, auto-replenishment and customer service across retail, e-commerce and distributors.

THE RESULT

Connect planning, production, inventory, quality, distribution, and financial performance in one pet food-specific ERP platform.

A PET FOOD ERP PARTNER THAT UNDERSTANDS THE INDUSTRY

1. WHY ADROIT

DEEP PET FOOD INDUSTRY EXPERTISE

Proven experience across dry, wet, raw and treat manufacturers and private label brands.

POWERED BY APTEAN FOOD & BEVERAGE ERP

Built on Microsoft Dynamics 365 Business Central and purpose-built for pet food manufacturers.

BUILT FOR QUALITY & COMPLIANCE

Solutions aligned with AAFCO, FDA, FSMA, and retailer requirements to keep your brand trusted.

CONNECTED ECOSYSTEM

Reporting, automation, EDI, mobility, labeling and hardware built for pet food operations.

PARTNERSHIP THAT LASTS

Long-term support for implementation, adoption, optimization and continuous improvement.

2. ADROIT VELOCITY IMPLEMENTATION ACCELERATOR

1. PLAN

Discover, assess, and define success together.

2. DESIGN

Map pet food processes and design the right solution.

3. CONFIGURE

Configure, integrate, and prepare your solution.

4. VALIDATE

Test, validate, and ensure readiness for go-live.

5. OPERATE

Go live with confidence and drive continuous value.

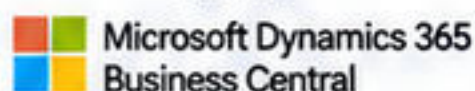

Adroit Velocity combines pet food-specific process design, AI-assisted requirements and testing, proven configuration standards, and experienced consultant validation to accelerate implementation while reducing risk and delivering faster time to value.

3. A CONNECTED SOLUTION FOR THE PET FOOD ENTERPRISE

Food & Beverage ERP

Built on

DEMAND PLANNING & FORECASTING

Accurate demand signals across SKUs, channels and seasonality.

PURCHASING & INGREDIENT MANAGEMENT

Track ingredient specifications, supplier cost and quality.

RECIPE, FORMULA & NUTRITIONAL CONTROL

Manage recipes, co-products, nutritional targets and palatability.

BATCH & PRODUCTION CONTROL

Real-time visibility into mixing, extrusion, cooking, drying and packaging.

QUALITY, SAFETY & TRACEABILITY

Lot traceability, AAFCO compliance, allergen control, recalls, and audit readiness.

INVENTORY & SHELF-LIFE MANAGEMENT

FEFO, expiration dates, finished goods and raw material control.

ORDERS & DISTRIBUTION

Order management, picking, routing, EDI and retailer compliance.

FINANCIALS, COSTING & ANALYTICS

Real-time KPIs on yield, margins, brand and channel performance.

One ERP. Every function connected. Complete visibility. Better decisions. More profitable pet food brands.
